SUMMARY

SQA Engineer with about 2 years of hands-on experience in manual and automated testing of web and mobile applications. Proficient in designing and executing comprehensive test cases, validating UI/UX, and ensuring seamless integration between frontend and backend systems. Skilled in tools like **Cypress**, **Postman**, and **JMeter**, with a strong foundation in C#, .NET, JavaScript, and Agile methodologies. Actively learning **CI/CD** tools such as Docker, Jenkins, Git, and Kubernetes to support continuous testing and faster deployments. Proven ability to enhance software quality, identify critical bugs early and contribute to faster, more reliable releases. Passionate about continuous learning and delivering exceptional user experiences through meticulous QA practices.

WORK EXPERIENCE

Cedrus Group Pvt Ltd

SQA Engineer

Abbottabad

Mar 2024 – Present

- Performed manual testing across web applications and websites, focusing on functionality, usability, and responsiveness.
- Focused on UI/UX testing to ensure design consistency and user-friendly interfaces across devices.
- Developed and executed detailed test cases and test plans, ensuring thorough validation of workflows and user scenarios.
- Conducted functional, regression, and usability testing to ensure stable and high-quality software releases.
- Collaborated with developers and designers to identify, report, and track bugs using **JIRA**, ensuring timely resolution and quality delivery.
- Implemented automation testing using **Cypress**, improving test coverage and reducing regression time.
- Validated API responses using **Postman**, ensuring accurate integration between frontend and backend systems.
- Performed load and performance testing with **JMeter**, identifying potential system bottlenecks under stress.
- Ensured cross-browser compatibility and responsive behavior across multiple screen sizes and environments.
- Contributed to process improvements by maintaining test documentation and following **Agile** practices like sprint planning and daily stand-ups.

PROJECTS

- **Learning Management System (LMS) Application**
 - Executed manual and automated testing of various modules, ensuring overall functionality, UI consistency, and bug-free releases in web interfaces.
 - Created and executed detailed test cases and plans to validate workflows and user interactions.
 - Used Cypress to automate repetitive test scenarios such as adding questions, assigning assessments, and verifying form validations and search/filter functions, which improved testing efficiency and reduced manual effort.
 - Additionally, performed API testing with Postman to validate backend integration, ensuring accurate data handling for student assessments, result submissions, and reporting.

- **Collect Agent Application**
 - Performed functional and regression testing to verify workflows, form validations, and API integrations.
 - Used Postman for API testing and JMeter to simulate high-load scenarios by submitting hundreds of patient records to assess system performance.
 - Reported and tracked issues using JIRA, ensuring timely resolution and application stability.
- **Paper Making Application**
 - Performed end-to-end testing of the question management and paper generation modules.
 - Verified features such as adding/editing questions, filtering, pagination, and status updates.
 - Tested the complete workflow of creating question papers by adding various types of questions.
 - Automated key test cases using Cypress to improve efficiency, accuracy, and reduce manual effort.
- **Websites**
 - Manually tested multiple static and dynamic websites with a strong focus on UI/UX validation by comparing implemented designs with Figma designs.
 - Verified responsiveness, layout consistency, and cross-browser compatibility to ensure seamless user experience across devices.
 - Carefully checked that the website looks and works exactly like the design and is easy for users to use.

TRAINING

UPWARDS (TRAINING PROGRAM)

Nov 2023 – Feb 2024

FULL STACK DEVELOPMENT

- Gained hands-on experience in C#, ASP.NET core, Web API, MS SQL Server, HTML, CSS, JavaScript & React JS.
- Worked on building RESTful APIs, integrating dependency injection, and optimizing database management.
- Gained practical exposure to front-end technologies, including HTML, CSS, JavaScript and React.

SKILLS

Programming Languages & Frameworks

C# | ASP.NET Core | JavaScript | HTML & CSS | MS SQL

Testing & QA Tools

Manual Testing | Automation Testing (**Cypress**) | API Testing (**Postman**) | Performance Testing (**JMeter**) | Unit Testing | Test Case Design

Version Control & Methodologies

GitHub | Agile Methodologies | Bug Tracking (JIRA)

Soft Skills

Presentation and Communication | Working under Pressure | Team Management | Problem Solving

EDUCATION

Bachelor's Degree, Computer Science

University of Haripur

2022

LANGUAGE

English | Urdu
